# NEEDS OF REFORM WORK

# Washington Asylum and Kindred Institutions.

OOLONEL TRACEY'S VIEWS

He Touches Upon the Barial of the Pauper Dead and the Food Furnished the Inmates of the Aimshouse-Congress Set Right on Matters Connected With the Institution.

Washington Asylum is placed by Col. John Tracey in his report upon charities and reformatory work here at the head of all such institutions in the District. A memorandum is incorporated in the report. explaining why certain changes, involving a net increase of \$23,443 in the appro-

printion, should be made. Col. Tracey says: "Congress has for the past two years allowed \$4,000 and \$4,500, respectively, for hospital construction. With these sams two excellent wards have been provided, and by utilizing basement rooms in the one built this year the medical service of the hospital will be placed in good

"Heating arrangements, however, areantiquated and defective, as well as lacking in cleanliness. It is proposed, by locating a small boiler-bouse at the lowest point on the hospital grounds, to establish a central heat-ing station for the dispensary, physician's quarters, nurses' quarters, and the seven wards-comprising the group of hospital build-ings. This work, including all necessary apings. This work, including all necessary appliances of piping, etc., for beating by sleam or hot water, is to be done at a cost not exceeding \$4,000. Very great progress has been made within three years in transforming this hospital, and I feel confident that eress will allow the change to be com pleted by the necessary improvement now

sed... e present place of deposit for bodies The present place of deposit for bodies of the pauper dead is too far from the cemetery and is onground now turned over to the parking commission, which asks for removal of the missance. The appropriation of \$600 requested for building a vault in the grounds of the potter's field cemetery is one of those connected with administration not strictly within the province of the Washington Asylum, but associated with its service as a mather of commons and convenience." ter of economy and convenience.

EXTENSIVE REPAIRS NEEDED. For painting tin roofs, relaying floors and resurfacing walls, \$3,000 is requested The condition of the ainshouse and the maie workhkouse is such as to necessitate extensive repairs. A beginning has been part of the aimshouse by resurfacion walls. It is necessary to continue the work throughout the aimshouse and made workhouse. Brick floors have become very much worn and uneven, so that it is impossible to keep them clean and dry and to preserve sanitary conditions in the crowded buildings. There should be substituted concrete or cement floors to prevent dict and disease. Two of the floors in the male workhouse are in such condition that relaying is imperative. Several of the roofs of the large author of buildings constituting the asy-nm establishment require repair and paint-ing. for the protection of innates and the preservation of the property.

"The \$500 requested can be expended to good advantage in hospital furnishing and appliances to replace worn-out ar-ticles and supply medical and surgical fa-cultics suitable to the requirements of modern surgery. The hospital, the only medical and surgical establishment of the District directly under the authority of the Commissioners without the interven-tion or co-operation of any institutional oard, does important work, surgical as well as medical, as a general hospital for the custom section of the city, and it should

the castern section of the city, and it should se as well supplied in proportion to its capacity as the other bospitals of the city."

The increase of the contingent fund from \$44,000 at present to \$52,000 for the next year is based on a calculation of \$100 a year for each person supported.

"The per capita is the lowest it is safe to assume, and the average last year was low, from various causes, including the increased number of short-termed commitments to the worknesses as compared with previous longer terms, and the sentencing to jail of classes of offenders formerly sent to the workhouse. of offenders formerly sent to the workhouse It is quite probable that the average of inmates during the next fiscal year will reach 500 instead of last year's 522."

# THE PAUPER DEAD.

Heretofore, with the exception of \$300 for coffin-making in part compensation for such work, allowed from the District fund for the relief of the poor, the entire expenses of rial of the pauper dead of the District ve been borne by the contingent fund of Washington Asylum. If the work is to se continued in the asylam's charge it is taked that \$1,500 be allowed for it. This

would, of course, virtually, proportionately increase the money allowed for asylum use. "I would lesitate to recommend it were it not that I see occasion for improving the quality and variety of the food furnished to the almshouse and the hospital, especially to the immates of the latter. More generous for the inmates of the inter. More generous diet would be of great advantage to the nok, notably by the use on proper occasions of sick-room delicacies, which are not to be expected by healthy inmates of a correctional establishment, such as the workhouse. Again, the innintes of the almshouse, male nd female, many of them very aged and and tennie, many of them very specialization in the eyes of the law, but unfortunates; and I think that with all regard to economy, some improvement, especially as to variety in their nourishment, should be made.

"As a rule, there has been too little op-

"As a rule, there has been too intie op-portunity for maintaining a desirable dif-ference between the food supplied to the workhouse, the almshouse and the hospital. Appropriations have apparently been graded with some deference to the entirely er-concous notion that the Washington Asy-ion, is a "murely correctional establishment." um is a "purely correctional establishment. which is by no means the case, concerning the maintenance of the disabled poor and sick or injured of the District."

Pay for two watchmen and two over-

eers and a carpenter, all now employed, out paid from the contingent fund, is asked, to as to comply with the spirit of the estiante laws, which call for exact and open specification of such saluries for employes. An advance from the present \$350 to \$365 An advance from the present \$350 to \$305 a year is asked for the assistant cognineers.

Norses are now paid only \$60 a year. It is proposed, as necessary to good assistant administration, that their pay be raised to \$120 a year.

"The work is arduous for a small force of five nurses, and their pay should be made sufficient to secure capable women. A well-instructed energy is a prime technique.

Heads of Bureaus Called Upon to Make

Report. A result of the investigation of methods of accounting, etc., under the Bockery Commission, came to the surface yesterday. Secretary Timefall for the Commissioners sent a circular letter to all the heads of officers in the District government, asking them to report by Saturday whether any part of the business of their offices is in arrears, to what extent and why, in order that the Commissioners may report these facts to the Secretary of the Treasury. Officials are requested also to report all employes under them who have been de-laited from the place for which appropria-tion has been made to other positions for a period exceeding one year.

a period exceeding one year.

This action is in response to a letter from Assistant Secretary Wike, of the Treasury Department, calling attention to Section 7 of the executive, legislative and judicial appropriation bill passed last March. This requires the head of each department to submit a statement covering the points outlined at the first session of the Fitty-fourth Congress and to all succeed-ing Congresses. This statement is to be placed in the annual estimates. The report, of course, is made this year for the first

H. Clay Amstrong sent to Madrid in his place.

This nomination, with others, was taken up by the Committee on Foreign Relations yesterday, when the statement was made that the services of Mr. Bonsai at Madrid had become impaired, owing to certain acts of his, and that this government had found it necessary to make the transfer to Japan. No particulars were given, and the committees seemed to be given, and the committee seemed to be gnorant of the nature of the report.

# ALEXANDRIA HAPPENINGS.

The new constitution and by laws of the Business Men's League, Alexandria's Board of Trade, have been printed and are now being circulated among the business men, so that they can see the nature of the league and its objects. The leading busi-ness men of the city are all interested in it, and on next Tuesday night, at a meeting to be held in the hall of the Relief Hook and Ladder Company, the organization will be completed by the election of officers, etc., for the ensuing year.

At the meeting of the city council on Tuesday last, a bill providing for the proper inspection of all buildings to be erected in the future was offered in the lower board and referred to the joint committees board and referred to the joint committees on streets and public property. There are now no regulations as to the manner in which buildings should be erected and for some years post there has been a demand for the passage of an inspection biff. Not long since two habdsome three-story buildings were erected here, and after they were up it was discovered they were up safe and the owners had to have them practically rebailt. This was caused by the negligence or ignorance of the builder, and it is to prevent a repetition that the law will be passed.
